

Think inside the box ...

2X THE FILTERING CAPACITY

Introducing Service Pro® Extended Protection Oil Filters

Engineered to protect critical engine components under the most extreme conditions, Service Pro® Extended Protection Oil Filters feature a high-efficiency synthetic hybrid media that provides **2X the filtering capacity** of regular cellulose media filters. In addition, Service Pro® Extended Protection Oil Filters are equipped with a silicone anti-drain back valve designed to provide long lasting engine protection over extended oil change intervals.

Service Pro® Extended Protection Oil Filters provide a high quality filtration solution for extended drain interval applications. By choosing Service Pro® synthetic motor oils and new Extended Protection Oil Filters, you're choosing maximum protection, mile after mile.

- Synthetic hybrid media that provide 2X the filtering capacity of regular cellulose media filters
- Filtration efficiency of 99.5%
- Silicone anti-drain back valve
- 30 filters provide 94.3% market coverage
